

```
package org.assignment.linkedlist;

import java.util.Vector;

public class VectorMethods {
    public static void main(String[] args) {
        Vector v= new Vector<>();
        v.addElement(10);
        v.addElement("A");
        v.addElement(null);
        v.addElement("A");
        v.addElement("N");
        System.out.println(v);
        System.out.println(v.firstElement());
        System.out.println( v.lastElement());
        System.out.println(v.elementAt(2));

        // v.removeAllElements();
        v.removeElement(10);
        v.removeElementAt(3);
        System.out.println(v);
    }
}
```
