

```
package org.assignment.linkedlist;

import java.util.TreeSet;

public class Treesetdemo {
    public static void main(String[] args) {
        TreeSet t= new TreeSet<>();
        // t.add(null);
        t.add(10);
        t.add(12);
        t.add(13);
        t.add(10);//retuns false Duplicates are not allowed
        // t.add("a"); ClassCastException ->Heterogeneous objects are not allowed

        System.out.println(t);
    }
}
```
